

2005 AWARDS COMPETITION WINNER

Heaviest Structure Moved NOT On Rubber-Tired Dollies

Wayne Grippin

Wayne Grippin Construction & House Moving

Salem, Oregon

Western Royal Motel

The 42 units motel that weighed 500 plus tons was raised three feet and one inch in one lift. The motel had been constructed in a flood zone in Tillamook, OR. The bottom floor had been condemned from occupancy for seven years.

feet. An additional 1,207 square feet of deck was attached. The second floor building consisted of 9,096 square feet with an additional 1,520 square feet of deck.

The ground floor building consisted of 8,846 square feet. $8,846 + 1,207 + 9,096 + 1,520 = 20,669$ square feet

SM

The 42 units motel that weighed 500 plus tons was raised three feet and one inch in one lift.
