Warkentin Building Movers Virden, Inc.

Virden, MB, Canada

Peach River
Peach River, AB, Canada

Markentin was awarded a contract to move four 1,400 square-foot structures from Edmonton, Alberta, Canada to Peach River, Alberta.

The actual distance by automobile is 500 kilometers. Due to a height of 21 feet, high load corridors had to be utilized making the trip 850 kilometers.

Contending with northern Alberta winters it required approximately four days to each structure. In Peach River the houses were set on concrete insulated block basements.

Most Square Footage on One Level:

Cole House Relocation to Heritage Park

Tt took Cen-Cal three days in April 2009 to raise and relocate this 44-foot high historic house through orange groves to the south side of the city block where it was located. The house was lowered onto its new foundation on the 26 of May.

The house was relocated to Heritage Park to join another historic structure that Cen-Cal also relocated in 2004.

Telkamp House Moving

Brookings, SD

Hubers House

Over 12 days in August and September 2009 Telkamp relocated this structure from Marshall, MN to Pipestone, MN, a distance of approximately 50 miles.

The structure was 56 feet wide x 76 feet long x 36 feet high and weighed 10 tons. It was moved at night and required coordination with seven different utility companies and the Minnesota Highway Patrol.

The project fee was over \$50,000.

UNDER \$30,000 CATEGORY

Scrib's Moving & Heavy Hauling

David City, NE

200 Foot Vessel

In June, 2009 Scribs moved this vessel from Logan, IA to Blair, NE.

A company from Texas was having difficulty and contacted Scribs to assist them in moving the vessel off the roadway after having the rear end of their truck go out. Scribs moved the vessel to a truck stop in Blair, NE since this was the second time the equipment of the Texas firm had broken down and the Iowa Department of Transportation wanted the load out of their state.

Montclair, CA

The Ring

The ring is used on a rear dolly. You can put a rocker on top of the dolly (that has a "johnny Ball") and it won't fall off. The ring also allows you to twist, turn, pull, and push.
