A World Fit To Live In

In order to have a world fit to live in, structural movers need a fit self worth. To have the right self worth, structural movers need a fit philosophy to live by. Al Walker will share the philosophy of successful people and encourage attendees to look at their philosophy of life in seven different categories. This session can assist you, after returning home, to write a personal values statement in each of the seven areas. Attending this presentation is a terrific way to complete three days of invaluable educational opportunities.

The final General Session will include election of Directors

10:30 am – 2:30 pm **Ladies Activity**

Leaving the Marriott, attendees will tour the historic heart of Columbia; visit the Robert Mills House and the Hampton-Preston Mansion prior to lunch at the Seibels House, built in 1796, the oldest house in Columbia. The tour will conclude with an optional walking tour of the State House (Capitol) grounds, the exterior and cemetery of Trinity Episcopal Cathedral and the lower section of Main Street from the Capitol Building to the Marriott.
