

The equipment you need at the prices you want!

Modern Hydraulics/Nevada LLC

The new world leader in Unified™ Hydraulic Jacking Systems

Power Packed Power Packs

Available with 5, 10 and 15 gallon tanks, with 5.5 and 13hp engines, single and double acting, single and multiple flows. Eight outlets standard. Operating pressures from 6000 psi to 10,000 PSI. Run crib jacks and dolly cylinders. Simple, portable, reliable.

Black Jack Crib Jacks

Superior design, construction and materials. Easiest to service with removable bottom plug and the strongest return spring. Updated base with E-Z carry handles. Nine and seventeen inch stroke models.

Unified™ Jacking Systems

We can build any size of Unified™ Jacking System from 2 outlets to 120 outlets. Operating pressures to 10,000 PSI. Single and double-acting models. Any size or layout of frame and/or gauge panel including compact designs for short bed trucks. The best ball valves. No gimmicks. *Modern* designs with the quality and reliability you've known for almost 50 years as well as re-manufacturing of old machines. Sales, service, and **rentals/leasing** of Unified™ Jacking Machines. Tell us what you need and we'll build it!

We're upgrading to serve you better! At right is a photo of our new Haas CNC lathe, the first of several new machines that we are purchasing to improve our service.
