

FAST – EASY – ACCURATE ONE MAN OPERATION

Set the reel on the ground, pull out the display, and you're up and working in seconds. Faster than a laser and no clear line of sight needed. Easier than a bucket and hose!

DLS

DIGITAL LEVELING SYSTEMS

ELECTRONIC WATER LEVEL

■ Promotes Your Professional Image

A Digital Electronic Instrument is much more professional than a bucket and hose!

■ Adds Credibility To Your Set

Repeatable numerical data is rock solid in disputes!

■ Sets You Apart from your competition

Make the other guy the one who can't do the job right!

■ Ideal For Re-Levels

Quick, Easy, One-Man Operation, and once again a Digital Readout is hard to argue with!

DLS Electronic Waterlevel used in the erection of the Olmsted Lock & Dam Project, (shown below).
