

ESCO Has High Tonnage Light Weight Aluminum Cylinders For Your Structural Moving Needs.

MODEL 10751

No more cracked, warped, bulky wooden blocks!!

- Lightweight (weighs only 5 lbs!)
- Corrosion & rot-proof
- Will not absorb moisture
- 216 ton weight capacity
- Will not break under load
- Will not mushroom or warp
- Jack always sits on flat surface
- Works with all types of jacks
- Doubles the surface area for jack to sit on
- Great in soft earth or uneven ground
- Lifetime guarantee against breakage
- Safer than wooden blocks

Durable Crib Blocks

Safely Support and Stabilize Lifted Loads

- Multiple sizes, shapes fits most applications
- Interlocking or aggressive non-slip surface
- Non-conducting plastic resists oil and most chemicals
- Does not splinter, like wood
- Operating temperature range is -40°F to 284°F (-40°C to + 140°C)
- Carrying lanyards provided on all 6" x 7" and on yellow 4" x 4" crib blocks
- Made from 100% recycled plastics

3 Box Interlocked Crib
