

We are  
**MODERN Hydraulics/Nevada LLC**  
and we're proving it!

**Introducing remote controls for Power Packs  
And Unified Jacking Machines!**

- ⇒ One person can operate a Power Pack at up to 200' from the machine with this wireless control system
- ⇒ Proportional main valve control means you can vary the overall speed of the jacking operation
- ⇒ Proportional control of three jacking zones, allows you to speed up one zone, slow down one zone, stop one zone
- ⇒ Cord for operation in the event of battery failure in the remote

- ⇒ Corded remote control for the Unified Jacking machine allows one person operation at up to 200' from the machine

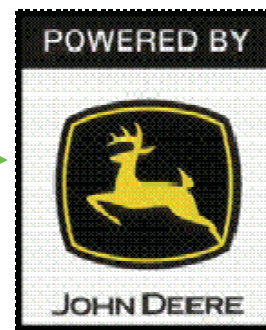

- ⇒ Operate every valve, view the pressure on each jack, know position of the main unit
- ⇒ Choose from manual operation or have instructions for each step appear on the screen, great for new users
- ⇒ Electronic controls allow the full 17" of stroke at the jacks, prevents over-extension and over-pressure of the jacks, pressure on helper jacks can be limited
- ⇒ Automatic re-setting of main unit when using more than one jack per unified outlet

**Announcing our newest partner: John Deere!**

You can now choose a John Deere diesel engine to power your Unified Jacking system

FROM THE PAST...
